OBJECTIVES

A self-driven and meticulous IT professional with a Bachelor of Science in Information Technology, looking forward to collaborating and contributing my experience in map data reviewing, Data processing, MAP processing, and IT support to a fast-paced company. Having diverse experience and enthusiasm for using technology to address challenges, I strive to improve efficiencies, increase system performance and provide innovative solutions. Excited to keep my career progressing, I'm truly investing in keeping up with industry trends and bettering the growth of a forward-thinking organization that strives for both technology and collaboration.

EDUCATION

Bachelor of Science in Information Technology
AMA Computer College,
II Don E. Ruiz Street, Laoag City, Ilocos Norte.
November 2024

- Artificial intelligence/programming/networking
- With honor/Dean Lister/Best Thesis

SKILLS

- ArcGIS, QGIS, Qfield
- Programming
- Web Development
- Technical Support & Troubleshooting
- MS Word, MS Excel, Power Point, Canva
- Repair printers / cellphones

CERTIFICATIONS

- A Beginners Guide to Artificial Intelligence – 29, April 2024
- Cybersecurity Awareness – 31, Jan. 2024
- Canva for beginners – 31, Jan. 2024
- Big Data & Analytics – 13,Dec. 2023
- DevNet Associate – 21, Aug. 2023
- Cybersecurity Essentials – 13, Aug. 2023
- Introducing Cybersecurity - 12, Apr. 2023

EXPERIENCE

Map Data Reviewer – Geotagging of Service Facilities and Government Projects
Philippine Statistics Authority (PSA), Vigan City, Ilocos Sur
March 2025 – April 2025

- Conducted verification processes for the geotagged records of service facilities and government created infrastructure within different municipalities of Ilocos Sur.

- Maintained the spatial precision as well as verified the metadata of the geotagged images of entitled public structures such as schools, health centers, and roads.
- Used GIS tools along with related shapefiles to validate the coordinates against the actual map data for precision.
- Coordinated with field staff and supervisors to resolve geotagging discrepancies and uphold quality control.
- Enhanced the reliability of the PSA's efforts for improving the spatial data accuracy through planning and decision making to the 2024 Geotagging Project.

Data Processor & MAP Processor- 2024 CENSUS POPCEN-CBMS
Philippine Statistics Authority (PSA), Vigan City, Ilocos Sur

September 2024– February 2025

- Process and analyzed data for various projects related to 2024 POPCEN-CBMS.
- Ensured accurate data entry and validation to maintain high-quality results.
- Assisted in preparing reports and summaries for stakeholders.
- Validated and corrected inconsistencies in forms from different barangays and municipalities in Ilocos Sur to ensure accuracy.
- Validated and scrutinized shapefiles and GeoIDs of map data files for barangays in various municipalities in Ilocos Sur to ensure proper mapping and data integrity.
- Resolved disputes regarding barangay boundaries by collaborating with local officials to clarify and finalize lines.

Enumerator

Philippine Statistics Authority (PSA) – Vigan City, Ilocos Sur, Philippines

September 2024

- Conducted field data collection for national surveys, ensuring accurate and reliable information from households and establishments.
- Interviewed respondents and accurately recorded responses to questionnaires, adhering to data privacy protocols.
- Verified and cross-checked the data entries to ensure consistency and reliability.

IT INTERN (TECHNICAL SUPPORT)

Provincial Government of Ilocos Norte-(PGIN),

Laoag, Ilocos Norte, Philippines

May 2024 – August 2024

- Provide technical support for government employees, troubleshooting hardware and software issues.
- Assisted in the installation, configuration, and maintenance of computer system and network infrastructure.
- Conducting routine maintenance and updates for operating system and software applications.
- Repair the broken printers in different offices in PGIN.
- Set up projector at PGIN when there are events.
